Method and sources

- Letter values and reduction by the Pythagorean table; master numbers 11, 22 and 33 are kept where that system keeps them.
- Reduction rules after Hans Decoz, Numerology: Key to Your Inner Self; Chaldean values after Cheiro, Book of Numbers.
- Only Latin letters carry values in these tables, so the name is read as written in Latin script.

Numerology is a tradition of reading numbers symbolically. This report is not psychological, medical, financial or legal advice and it does not predict events.
