How to read this report

Relocation moves no planet. Every one of them stays at the zodiac degree it held at birth. What changes is the angle the sky stood at over one particular point on the ground, which is to say the ascendant, the midheaven and the house boundaries that follow from them. So the substance of this report is not the planet list but which houses they moved into, and which lines run nearby.

The chart as born

ASCENDANT	Virgo 19.97°
MIDHEAVEN	Gemini 17.07°

Lines running nearby

PLANET	ANGLE	DISTANCE
Chiron	IC	100 km
Jupiter	IC	140 km
Uranus	MC	167 km
Neptune	MC	230 km
Venus	ASC	275 km

Jupiter - IC

Favorable for comfortable living, building a family home, creating a good family, and having children. Family and household problems can be successfully resolved. Good chances of having a large, luxurious home where you can relax, host many guests, and hold social events. Prospects related to family connections and family wealth. Interest in family history. Harmonious family life on a grand scale, patriotism and all its advantages. High probability of success in real estate and land business.

Uranus - MC

Good for working with new technologies, computers, and the Internet. Not very stable working conditions. Career changes, new goals and directions. Moving into a "freelance" position. Difficulties in practical matters. You can succeed if you easily and quickly adapt to changing circumstances.

Neptune - MC

Matters that initially seem easy may bring major problems. Be cautious with monetary investments and situations you allow yourself to be drawn into. A desire to present yourself in an unusual light may arise. Confusing relationships with management and other authoritative people. Career disappointments. Good for work in spiritual and charitable spheres. In practical matters and with specific agreements, difficulties are possible.

Venus - ASC

Your attractiveness, charm, sense of humor, and sociability are enhanced. More meetings, parties, and friendly gatherings. Pleasant pastime. Successful cooperation and good luck in general. You can improve your appearance and make the most of your strengths. Financial situation can also improve.

Method and limits

Distance to a line is computed from the body hour angle and altitude rather than against a polyline, which makes it exact: the distance to a horizon line is the altitude of the body in degrees of arc. The weights and polarities of the life areas are an editorial system after Jim Lewis, not a calculation; they order the result, they do not predict it. This report is not advice on relocation, health, finance or law.
